- 6-Fellowship of Knee Arthroplasty surgery from Stolzalpe Hospital (Lehrkrankenhaus der medizinischen Universitat Graz), Austria, 2012.

Clinical Experience in Iraq (1998- 2000):

Worked as an intern doctor for 2 years (October 1998 – November 2000 in Baghdad and Thi-Qar hospitals in Departments of Medicine, Surgery, Paediatrics, Gynaecobstetrics and surgical sub-specialties.

Clinical experience in Jordan (2001-2006):

Worked as a resident doctor in a scheduled academic and clinical training program in the Jordan University Hospital for 5 years (July 2001 – July 2006), first year in the Department of General Surgery and the next 4 years in the Department of Orthopaedics. At the end of each year there was a written and clinical exam. Training program in the Department of General Surgery included the following rotations (2 months each):

- 1- Casualties and Accidents
- 2- Plastic surgery
- 3- GI surgery
- 4- Surgical oncology
- 5- Endocrine surgery
- 6- Cardiovascular surgery

Training program in Department of Orthopaedics included the following rotations:

- 1- Management of fractures
- 2- General orthopaedics
- 3- Hand surgery
- 4- Arthroplasty
- 5- Spinal surgery
- 6- Paediatric orthopaedic surgery

Clinical experience in Iraq (2007-2020):

Worked as a full time specialist (then upgraded to consultant) of Orthopaedics and Trauma Surgery at Al-Hussein Teaching Hospital which follows Thi-Qar Health Directorate and is the main training centre for students of the College of Medicine of Thi-Qar University from 2007 to the date. Assignments which are undertaken under this title include the following:

- 1- Emergency Department: receiving patients with musculoskeletal injuries, providing first aid measures, performing day case surgical procedures and admitting cases for further management after full assessment and stabilization.
- 2- Performing surgeries for a wide range of orthopaedic cases on a weekly basis including fractures, congenital anomalies, arthroscopy, and joint replacements.
- 3- Outpatient Department: receiving cold cases, thoroughly assessing them, prescribing medical treatment, scheduling indicated cases for surgery and providing follow up for operated cases.
- 4- Daily visits to inpatients providing necessary care including consults from other branches.
- 5- Organizing and participating in departmental and interdepartmental clinical activities including XR conferences, case presentations, journal meetings and grand tours.
- 6- Training orthopaedic residents.

Academic Experience in Iraq (2007-2020)

Worked during the period from 2007 onward as a lecturer (then upgraded to assistant professor) in the College of Medicine of Thi-Qar University, Department of Surgery, Division of Orthopaedics. Duties assigned to this post include:

- 1- Presenting lectures of Orthopaedics and Fractures.
- 2- Bed-side clinical orthopaedic training of 5th and 6th year medical students including performing procedures appropriate to their level.
- 3- Organizing theoretical and clinical tests.
- 4- Training postgraduate students and residents.
- 5- Publishing papers at different topics in orthopaedics
