

Personal Data

Full name and surname : Rand Ali Zayyad Hamad Al-Salihi

Nationality: Iraqi

Birth of date: 14/1/1994

Address: Thi-Qar /Nassiriya /AlShumookh Q

Gender: female

Phone number: 07817217902

E.mail : rndly281@gmail.com

Scientific Qualifications

**Bachelor / Faculty of Science / University of Thi-Qar / Department of
Life science 2015**

Degree : Master

University of Thi-Qar / College of Science

General specialization: Life Science /Biology

Exact Specialization : Biology

Graduation Year: 2020

The number of published researches (6)

Number of conferences attended (15)

The title of the published research

Study Miscarriage Related to Hormones Disturbances and Leiden Gene
Mutation in Recurrently Miscarried Women in Thi-Qar Province

My Thesis Title

Study of Physiological and Molecular aspects in Recurrent miscarried

A brief about the nature of my work while studying for master's degree

My study plan was on aborted women in Thi-Qar province ,I tackled the subject from two sides ; hormones and genes. I worked on multiple hormones and their effect on abortion as well as the Leiden gene or factor V (fifth factor) .It's considered the first research studied in Thi-Qar province and previously untracked. My method was with Elisa and PCR.I also sent samples from scones and I had multiple mutations. I am also good at working on mini vidas and Maglumi devices.

Experiences and Skills

- 1- I am good at all kinds of internet and PowerPoint programs.
- 2- A previously external lecturer in government schools.
- 3- An external former lecturer in private schools ,in addition to that ,giving private lessons to school students for all stages and all subjects at home for a period no less than 4 years.
- 4- A former lecturer at faculty of Veterinary medicine /Shatra University
